Delete SI 16.b and replace with the following:

**16. SUPPORT BOATS**

b. A boats' registered Support Boat shall carry on board **at least** two crew, and operate while on the water, a marine VHF radio capable of transmitting and receiving on International marine VHF channels and agree to assist the RC or other Teams if directed to do so. [DP]

*Note: SI amended to correct a typo. In addition, the Organising Authority and Race Committee would like teams to consider the effectiveness of its Support Boat if required to carry out a rescue operation in an emergency, in particular consider the maximum number of persons carried onboard. All persons on board should adhere to the 2018 GC32 Racing Tour RIB and Support Boat Drivers "Safety Briefing" guidelines and all crew shall wear a personal floatation device (PDF) and the boat operator should use a kill cord.*
