Craning is provided by the Organising Authority during the official craning schedules (see ENoR). If you wish to use the crane outside the official schedules, please contact Hugo at Sopromar and inform the Class Management.

The cost of unloading (and loading) of the container, the launch of the GC32 (including stepping the mast) as well as haul out after the regatta are covered by the OA during the official craning schedules. Any additional craning has to be arranged with Sopromar and is at the cost of the teams. Fee per crane movement € 150 (boat and mast). Any craning after Tuesday 20th 18:00 is not permitted without permission of the OA (ENoR 14).

The craning out sequence of boats after the last race on Sunday will be arranged according to container placement and logistics required. The Organising Authority will provide a craning list accordingly. Craning will start straight after the last regatta. There will be no craning during the period of the prize giving.
